NEW BOOM AND MORE INFLATION AHEAD...and What YOU Can Do About It

The Boom of the Sixties - the biggest on record - has topped out. But a new and even bigger boom is coming...and with it, more inflation.

This may be hard for you to accept under today's conditions. But the fact remains that those who DO prepare for the boom times ahead will reap big dividends for their foresight...and avoid the blunders others will make.

You'll get the information you need for this type of planning in the Kiplinger Washington Letter... and the enclosed form will bring you the next 4 months of this helpful service on a Special Introductory Basis. The fee: A low \$4 for the next 4 months.

During the depression, in 1935, Kiplinger warned of inflation and told what to do about it. Those who heeded his advice reaped rich rewards.

Again, in January of 1946, Kiplinger renounced the widely-held view that a severe post-war depression was inevitable. Instead he predicted shortages, rising wages and prices, a high level of business. And again, those who heeded his advice were able to avoid losses, to cash in on the surging economy of the late 40's and the early 50's.

And now Kiplinger foresees a new boom and more inflation, coming on the heels of the longest period of prosperity in our history. And in his weekly Letter to clients he points out profit opportunities in the future...and also dangers.

The Kiplinger Letter not only reports, analyzes and interprets current developments, but gives you advance notice of new government programs... political moves and their real meaning...money policy...foreign affairs... investments...union plans and tactics...employment...wages...anything that will have an effect on you, your job, your personal finances, your family.

Regular readers pay \$24 a year for this service...and 4 out of 5 renew their subscriptions year after year. But the enclosed form entitles you to try the Letters at half the regular rate...only \$4 for 4 months.

To start service, just fill in and return the form with your payment. And the sooner you do this, the quicker you'll profit from the penetrating forecasts, judgments and advice you'll receive in each weekly issue.

Sincerely,

Boyce Morgan
Vice President
